DERIVED FROM:

Nitrates of Ammonium, Calcium and Potassium; Phosphates of Ammonium and Potassium; Sulfates of Cobalt and Magnesium; Manganese, Copper, Iron and Zinc EDTA and Molybdic Acid.

INFORMATION

Primescape Liquid Fertilizer Concentrate is a complete plant nutrient providing the NPK ratio of 9-3-6 recommended for tropical plants in indoor settings. Primescape Fertilizer enhances plant health by providing the essential secondary minerals of Calcium and Magnesium and the micro-nutrients of Cobalt, Copper, Iron, Manganese, Molybdenum, and Zinc. Primescape Fertilizer is free of Boron and Chloride. Proven effective on plants in soil and soilless media.

DIRECTIONS

Use 4 oz per 100 gallons, or just 1/4 teaspoon for each gallon of water (about three squirts on the 16 oz. dispenser pump container). Primescape Fertilizer is economical enough to be used with each watering as part of your regular plant maintenance program.

Primescape Liquid Fertilizer Concentrate is also available in one gallon containers.
